Remove Duplicate Photos Pro: User Opinions Remove duplicate photos, remove duplicate photo files, remove duplicate files with photos and remove duplicate files with documents - all this is needed to thousands of people worldwide. Many of them already removed duplicate files successfully with Remove Duplicate Photos Pro. That's what people say about Remove Duplicate Photos Pro possibilities:

"At April issue of "My Computer" magazine I read that Remove Duplicate Photos Pro is the easiest and most user-friendly way to remove duplicate files. I have large photo file collection on my computer. Several first years it was easy to maintain it, but now, when I periodically download variety of photo files from Internet it became very hard to find something in my photo collection. I did not know what to do - variety of folders and in every of them are picture and photo files those I even never seen. I even wanted to stop collecting of photo files, but suddenly come in mind that article - and I downloaded and started Remove Duplicate Photos Pro. It was like a miracle - all my photo files were sorted, renamed, organized automatically, exactly as I wanted. Really useful photo file sorter - It is needed for everyone who has photo files and wants them to be in ideal order."

Christopher Garvin, photo collector, ChGarvin@Photos.com

"At our photo studio, as on any other, is stored a large amount of photo files. Some of them are used regularly, some of them not. It is very hard to find needed photo file in our photo archive, where are stored thousands of photo files. We had to hire a special employee, who categorized photos in archive, but even such salvation was not perfect - we periodically received several thousands of photo files in a day, and a person who organized them, could not sort and organize them all and made a lot of errors. All this unsorted photo files collected, collected and collected... One day while real-time TV broadcasting, photo clips prepared to be shown for TV transmission were lost in all this chaos and we were forced to break TV transmission. My colleague from another photo studio called me, when knew about incident, and advised to use Remove Duplicate Photos Pro. Over several hours all our thousands of photos's were sorted and organized and even if we are gathering several hundreds of new images every day, Remove Duplicate Photos Pro easily append them to common photo collection - right from photo CD's! Thanks very much to all Remove Duplicate Photos Pro developers. photo file sorter, that they made, really helps people."
